

Church Resources can help you with all of your mobile needs and deliver solutions that add value to your organisation.

With business shifting towards an 'on the move culture' it is essential for you to have more access and functionality from mobile technology.

The Telstra Next G network provides superior coverage in more buildings, car parks, tunnels and lifts than any other 3G network in Australia. It can reach 99% of Australia's population and provide you with high speed internet access on your mobile phone. Quite literally, the Telstra Next G network can be used in more places around Australia than any other mobile network.

Mobiles on plan

Get a \$0 upfront mobile with special Church Plans* available to eligible Church customers as well as consumer and business plans.

Outright mobiles

We have a huge range of mobiles with the latest models and brands to suit your needs..

Outright mobile prices start from \$79 and on request can be bundled with free startup prepaid pack with \$10 free credit!

Accessories

We offer a huge range of accessories to provide you with the best possible mobile solution. Our range includes the latest Bluetooth handsfree kits, replacement batteries and chargers for all types of mobiles and much more.

Mobile phone repairs

For more information about mobile phone repairs please contact the Church Resources Telecommunications team on **1300 CHURCH (248 724)**.

Exclusive pricing

Church organisations, willing to enter into a fixed term contract, are eligible for exclusive rates providing significant savings*.

You can also save money by combining two or more mobile services on the one account. If some services do not use all of their 'included voice calls' in a month the balance is shared with other mobiles on the account.

Dedicated service team

We have a dedicated service team to help you design telecommunication solutions and provide you with after sales service and advice.

For more information about mobile services please contact Rhett, Ashan or Fenny in the Church Resources Telecommunications team on 1300 CHURCH (1300 248 724) or via email at telecommunications@churchresources.com.au.

* Due to Telstra requirements the Church Resources plan only applies to Anglican, Uniting, Lutheran and Catholic Churches and their institutions. To find out if your organisation comes under the Church Resources Plan call 1300 CHURCH (1300 248 724)

About Church Resources

Church Resources is a charitable trust established by the Catholic Church to help church groups and the not-for-profit community work collectively for the common good. Our role is to facilitate collaboration, partnerships and communication to leverage the buying power, expertise and knowledge of church and not-for-profit organisations. From an initial focus on Catholic institutions, we have expanded our services to include a wide range of church and not-for-profit groups. We partner with some of Australia's leading organisations to help our members in both metropolitan and regional centres.
